Engineering leader with **over 10 years of industry experience** successfully **leading global teams** in the **insurance domain**. Demonstrated expertise in **scalable software architecture**, **insurtech solutions**, and **cloud infrastructure**. Managed a **2.6M EUR engineering budget** making consistent monthly **revenue of over 250K EUR**. Skilled in **aligning technology with business objectives** and optimizing collaboration with cross-functional stakeholders to drive the engineering strategy. Adept at **mentoring engineers and engineering leaders**, consistently delivering **customer-centric solutions**.

EXPERIENCE

CLARK GERMANY | ENGINEERING MANAGER & DIRECTOR OF ENGINEERING

July 2023 – Mar 2025 | Frankfurt am Main, Germany

- Led a **global engineering team** of 20 people (across 3 teams) managing Swiss and UK insurance applications using React Native and Elixir.
- **Defined technical strategy** and partnered with Engineering Managers and Senior Staff Engineers to optimize architecture.
- Managed **€2.6M annual engineering costs**, ensuring resource efficiency and scalability while **generating €250K / month**.
- Mentored engineering managers, fostering a leadership pipeline and responsible for **performance management and promotions** of my teams.
- Advocated for a focus of the organization in **non-functional requirements (NFR)** increasing performance and scalability.

Key Achievements:

- Built a reusable Insurance brokerage application **reducing Time to Market (TTM)** for the company.
- Optimized and improved the delivery speed of the engineering teams by 20% while increasing the quality of the delivery using **continuous delivery** practices.
- **Optimized quarterly planning process** with a structured approach that makes it easier and faster for teams to plan and set the right expectations for management.
- Achieved the business goal of **3 million EUR revenue for 2024**.

KLARNA | ENGINEERING MANAGER

Jan 2023 – Jun 2023 | Berlin, Germany

- Led the Delivery Tracking team (of 5 Engineers) in Shopping Experience domain, **optimizing API performance** for order tracking.
- Developed scalable cloud-based services with AWS and Kubernetes (ECS).
- Responsible for performance management and promotions for my team. Got one of **my engineer promoted** in the Annual Compensation Reviews (ACRs).
- Supported and managed the **on-call rotations** for the teams various services.

CLARK GERMANY | SENIOR FRONTEND ENGINEER & ENGINEERING MANAGER

Aug 2019 – Dec 2022 | Frankfurt am Main, Germany

- Optimized SDLC processes, implemented TDD, and **reduced production bugs by 30%**.
- Mentored my team (of 7 engineers), enabling **career growth** and skill development.
- Participated in **formal internal design reviews** of the proposed products and components.
- Owned **end-to-end product development** following **DevOps** practices, translating roadmaps into **scalable engineering solutions** using Ember.js and Ruby on Rails.

Key Achievements:

- **Optimized the sales pipeline** by moving to Salesforce within 3 months resulting in 20% increase in revenue.
- Spearheaded the release of a new product line to **expand into the Austrian market**.

EDUCATION

FRANKFURT SCHOOL OF FINANCE AND MANAGEMENT

MBA - 2022

COLLEGE OF ENGINEERING, GUINDY

B.Tech - Information Technology - 2013

SKILLS

TECHNOLOGY

• Ruby • Ruby on Rails • JavaScript • Typescript • SQL • HTML • CSS • React • React Native • Git/Github • AWS (RDS, EKS, EC2) • Node.js • Kubernetes • REST • Elixir (Phoenix) •

LEADERSHIP

• Engineering Strategy • Cross-functional collaboration • Stakeholder Management • Performance Management • Budgeting and Estimates • Capacity Planning • Incident Management •

ARCHITECTURE AND DELIVERY

• Cloud-native applications • CI/CD Automation • Insuretech systems • Software Architecture • KPIs • ROI-Driven Engineering • Agile • Distributed Systems • DevOps •

OPEN SOURCE

EMBER-CLI-LUNR

An ember CLI wrapper plugin for lunr.js - A browser based alternative for a search server.

UPWORK.COM | FREELANCE SOFTWARE DEVELOPER

Mar 2017 – May 2019 | Bengaluru, India

- Led client engagements to **build MVPs** (4) and also **scale revenue-generating products** for growth (1).
- Oversaw a startup to **migrate from a monolith to a SPA** (Ember.js) and API backend (Rails) while adding features / fixing modeling along the way.
- Managed my features **end-to-end** from ideating to deployment and maintaining following **DevOps practices**.

GERM.IO / ZEPEL.IO | PRODUCT DEVELOPER

Dec 2014 – Feb 2017 | Bengaluru, India

- Owned **multiple major features** for the application like Social Authentication, Integrating WYSIWYG Editor into the Application etc.
- Championed for implementing **TDD approach** to the entire Rails backend. Contributed to **multiple Open Source projects**.

CODEBRAHMA | WEB DEVELOPER

Jun 2013 – Nov 2014 | Bengaluru, India

- **Owned multiple projects end-to-end**. Some of the notable projects are a Student-Mentor connecting app, a Payroll application called Quickchex.
- **Lead a team of two members** in a Fintech startup called KADU Collect based in Columbia.
- Contributed to **multiple Open Source projects**.

RELATIVE.VIM

A VIM plugin to easily navigate between the code and tests in a rails project.

CONSTANTIZABLE

Constantizable is a rails gem which gives you an elegant way to query constant tables and inquire constant table objects.

VARIOUS OTHER CONTRIBUTIONS

- Ember.js
- Ember Guides
- Ember Blog
- Ember Simple Auth

CERTIFICATIONS

Kubernetes Developer Cetification (CKAD)

SOCIETIES

2012 – 2013 ITrix Organiser - A Tech symposium of the IT department in my alma mater.
2019 – 2019 Organiser of the Bangalore Chapter of Ember.js meetup.
